"We hired CMP because we wanted to make sure we were getting good value on our meetings. CMP has helped us by negotiating very favorable hotel contracts, saving us more than 50% on the cost of A/V, and taking care of every planning detail. What I really like is how they've become part of our team. I would highly recommend CMP to any organization that feels like they are paying too much for their meetings and needs top-quality meeting planning support. They will make your life easier!"
